MEMORANDUM FOR: Secretary, CSCS Board

SUBJECT:

Recommendation for Promotion -

Robert P. Wheeler

As one of the final acts in my CIA career I want to bring to your attention and add my strong concurrence and recommendation to two (2) recorded recommendations for the promotion of Robert P. Wheeler to the grade GS-17. I find it hard to imagine a more persuasive recommendation for this action than that forwarded by my predecessor in June 1969 (Attached). I can imagino feeling when he prepared the second recommendation in February 1970 (Attached). And yet, I find in February 1971 there has still been no action. In the year that has passed this promotion has become even more deserved, for despite the natural disappointment accompanying such a continuing lack of recognition, there has been no diminution of enthusiasm, no lowering of standards, and the CS is clearly better managed because of his continuing efforts. Were these two previous recommendations not so clear cut and descriptive, I would conclude that those in control simply do not know what this officer does and has done. Knowing what he does and how he does it should not continue to be unrewarded and, hence, I add my strongest recommendation for early and favorable action.

2. This officer has performed in a most outstanding manner, as testified in his fitness reports by my predecessor, and certainly during my tenure as Chief, MPS for the past 12 months.

MEMORANDUM FOR: Secretary, Claudestino Servico Caroor Servico Beard

SUBJECT:

Rocommendation for the Proportion of Mr. Robert P. Sheeler to GS-17

1. It is recommended that Mr. Robert P. Wheeler be promoted to GS-17.

2. Mr. Wheeler obtained a B.A. degree in Political Science from the University of California, Berkeley, in 1942 and a M.A. in International Relations from George Washington University, Eastington, D.C., in 1946. He entered the U.S. Navy in 1942 and after a concerted course in Japanese served the New until 1946 as an Intelligence Specialist, Japanese Language Officer, and the War Department, Still as an Intelligence Specialist from 1946 to 1952. In September 1952 he joined the Agency for duty returned to Headquarters in June 1956 where he served until 1952; left for service from June 1959 to October 1964; served at Read-

quarters with the Office of Plancing; Programming and Budgeting (CPPH) from August 1980 until January 1988, and with MPS from the latter date to the present:

- 3. During his career with the Agency he has been a field Operations Officer, Liaison Officer to eversors U.S. agencies and a foreign intelligence service, a supervisor, Deputy Chief of Station _____ Chief FI for a divinion (FE), Chief of Dase _____ Program Analyst (oppn), and Program Analyst and Group Chief (NFS).
- 4. In his present position as Chief of Programs Group in the Missions and Programs Staff, Sr. Wheeler is responsible for liaison between the CS and the CPPS on the PPS System and non-budgetary satters; installing the FPB System

within the CS; advising and assisting CS components in the proparation of Operating Directives and the program pertions of the annual responses to the Program Call; chairing the Program Review Panel; preparing and/or coordinating special studies and surveys on operational programs; coordinating and preparing the annual DDP pricing of the PCI on CS previous and programs; and, as required, advising CS components on the requirements of PPBS that need to be addressed in CS documents requiring DCI or Executive Director-Completeliar action.

- 5. In his previous assignment hr. Wheeler was detailed to OPPB to give that office, in the preparation of Agency programs for submission to the Bureau of the Budget, a better understanding of classestine collection and covert action, to help that office better review and integrate CS programs in Agency programs, and to give him a broad view of the PPB System and Agency management in both of which he had shown considerable interest. His perfermance in that office was rated "Strong," and it was on that perfermance and on his genuine enthusiasm and interest in management generally that his services were sought for HPS.
- In the performence of his duties no Chief, MP3/PRG he made inmediate use of his long experience in and knowlodge of CS operations, the experience and incolodge gained in CRPD, his formal education in the PRD System, and a strong belief in and desire to put to work within the CS correin concepts of that system for göneral and appoilte management improvement. Given the idioxyneracies of the CS, he recognized early that in order to make the PPB system work offectively knowledge of the "why" and "how" of that system must be passessed at every decision-making level. With limitless energy and enthusiasm he got about "preaching the gampel" from division chief to case officer. Whomover and wherever a formal group to assembled and management to a topic for discussion, the Office of Training can count on him to drop everything and hold forth on the audicet, by it the Senior Hanagement and Planning Course (whether for supergrades or believ), Station Chief Conferences, the CS Benior Seminar (how in mession) and the like. Acting as the DDP/Tho's right arm to encourage attendance at the Sector Management and Planning Course he has cruseded with division and staff chiefs for the attendance of certain of

their key employees. To date upwards of 100 from the CS have attended that course with many more to follow. With some of those same senior officials he has argued the bonofits ultimately to accrue to their components from the tomporary assignment of a senior key official for a year or two to MPS and/or OPPA and eventual return to the mother component. One such arrangement, with duty in OPPB, has just been completed. His tactful, understanding, friendly, businesslike, professional and competent handling of the chairmanship of the PRP and the roviews of the operating Directive and country activities conducted by that Panel loaves little to be desired. Regarding the PPB Byston, he reads everything, pro and con, that comes to his attention, and he had count a fair num out of his own pocket to build a library on the nubject. He has pursuaded potential converts to the system to read those books, rogazines, periodicals and pamphiots to the end that most of that library to on constant loan. His insatiable appointe for news on current an well as historical domestic and foreign matters, his excellent sense of huser, and his genuiné friendliness are invaluable mesets in his present annignment incomed as they have given him such a wide range of acquaintances, in and out of the CS, as to open wide the deer for discussion on BPS responsibilities that ero anything but soxy. He is so highly regarded by his contacts in the divisions and staffa of the CS and in OPPB that his advice and guidance are constantly sought. He gives of him time and energy villingly, regardless of the grade of the individual or the magnitude of the problem. His onthusiasm is catching and he sets an excellent example for subordinates, equals and superiors as well.

7. In view of the above, Mr. Wheeler, a breadgauged, fant moving, compotent, dedicated, stacero and friendly individual who has not yet reached his full potential, whose goal is to make the Clandestine Service the liest managed directorate in CIA, and who will been have served five years in grade, is strongly recommended for premotion to GS-17.

MEMORANDUM FOR: Secretary, Clandestino Service

Career Service Board

SUBJECT: Recommendation for the Promotion of Wr. Robert P. Wheeler to GS-17

1. It is recommended that Mr. Robert P. Wheeler be promoted to the grade GS-17.

- 2. By memorandum dated 5 June 1969 the undersigned recommended Mr. Wheeler for promotion. In that memorandum was set out the career of Mr. Wheeler from the date he completed college (1942) until June 1969, and was described his wartime (1942-1946), immediate post-war (1946-1952) and Agency (1952-to June 1969) experience, all in the field of intelligence. Since it is the opinion of the undersigned that the Board should have the benefit of all the facts stated in that memorandum and since there is no change in the contents thereof, I hereby incorporate by reference the memorandum of 5 June 1969, make it part hereof and attach it hereto as a significant part of the present memorandum.
- 3. The time passed since 5 June 1969 has served only to contirm my conviction in Mr. Wheeler's true value to the CS. The has continued the strong leadership of the Program Review Panel and his subordinates. His unbounded energy and incessant championing of the applicable principles of the PPB System have resulted in office chiefs or other most senior officials appearing before the last Program Review Panel apparently interested and better prepared than ever before. His obvious sincerity and friendly and intelligent approach to the job have convinced many of the need for the better management of their affairs. This is no mean accomplishment in a world where the normal human resents

J. S. I.

even constructive criticism. Mr. Wheeler is so dedicated to making the CS the best managed component in the Agency that he continues to spend his own carnings on books and periodicals on the subject of management and to encourage interested parties to read them and pass them on to others.

- 4. The undersigned is aware that for the past six (6) months a private interest has dangled an impressive carrot in front of Mr. Wheeler in an attempt to induce him to retire and represent overseas the interests of that private concern. This fact is not to be considered by the Board as a sword of Damocles. It is simply to bring to the Board's attention that if a promotion at this time should serve to dissuade Mr. Wheeler from accepting the proficred job, the Board would have been instrumental in retaining for the CS in the management field one of the most dedicated, friendly, readily accepted, knowledgeable, industrious and qualified officers in the Agency.
- 5. In view of paragraph 3 above, the contents of the attachment hereto, and his potential for further growth, Mr. Wheeler is strongly recommended for promotion to Grade GS-17.

: Retiroment Planning

1. In order to assist employees in planning for their oventual retirement, it is the practice of the Agency to notify each employee at a point in service five years prior to the date of seneduled retirement. I am, therefore, taking this opportunity to advise you that you are scheduled to retire in totober 1975.

- 2. The prospect of retirement from the Agency deserves serious thought and careful planning so that you may make the transition to the next phase of life with purpose and confidence. To assist you in this regard, the Agency." will make available to you various resources which are attuned to the needs of prospective retirees. In October 1970, the Agency will conduct a Retirement Information Seminar to which you will be invited. Your spouse, if you are married, may accompany you to this seminar. Following the seminar, you will be invited by the Retirement Counselor for your Directorate to an individual pre-retirement counseling session (or more than one, if you wish); this phase of retirement planning will be tailored solely to your own particular situation and circumstances and will be within the context of the retirement system under which you will retire. The individual counseling sessions are intended to give you a wide range of information on such matters as estimates of your annuity, survivor benefits, life and health insurance, Social Security taxes, relocation and movement of household effects and assistance in obtaining other employment, if appropriate. In addition to the sessions with your ketirement Counselor, you will be invited to awail yourself of selected literature on all aspects of retirement.
- 3. Some persons who wish to retire voluntarily prior to the scheduled date, or who wish to commence their plausing as early as possible, prefer to work with their Retirement Counselor well before the time he would normally contact them. If you believe you would benefit from such an earlier start on your personal planning, you are invited to contact the Retirement Counselor responsible for your Directorate. He is assigned from your Directorate to the Retirement Affairs Division, 212 Magazine Euflding in Revelyn, on telephone extension 3328.
- 4. Experience has amply demonstrated that careful planning facilitates the transition to retirement. I recommend, strongly, that you avail yourself of the services the Agency offers you in planning your own retirement.

MEMORANDUM FOR : Mr. Robert P. Whoeler

THROUGH

1 Administrative Officer, MPS

SUBJECT

Purchase of Service Credit

- 1. This is to advise you that your application to purchase service credit under the CIA Retirement and Disability System has been processed. The amount of \$437.00 will be required to purchase credit for the period 18 June 1946 through 17 June 1947 when no deductions were withheld from your salary. Under the current provisions of the CIA Retirement System, payment of the above amount will increase your ensuity by approximately 2 per cent of your high-three average salary at the time of retirement. The amount due includes interest to the present date.
- 2. It should be explained that under the CIA Retirement and Disability System, all periods of creditable Federal civilian service during which retirement deductions were not taken from salary must be purchased by making a deposit in order for the time to be counted in the computation of the retirement annuity. Under the Civil Service Retirement System, such periods of Federal service are always creditable in the computation of annuity, but if not purchased, the annuity is reduced by 10 per cent of the amount due. For example, if a deposit of \$1,000 is required to purchase credit for those periods of service during which no deductions were withheld from salary, and it is not paid, the basic annuity would be reduced by \$100 per year. If the deposit of \$1,000 is paid, the retires would have to wait 10 years to recover his own deposit before profiting from the payment.

APPENDING TO THE PROPERTY OF T

- 3. The Agency has as an aim legislatively to secure the Civil Service option, i.e., credit for periods of non-deduction service without prior payment therefor, but with reduction of the basic annuity by 10 per cent of the amount due. Therefore, you may wish to consider deforring payment. You should be aware that the interest on the amount due will continue to accumulate at the rate of 3 per cent compounded annually if you decide to defer. For example, if it would take \$1,000 to purchase credit today, the amount due one year later would be \$1,030.
- 4. After consideration of the above options, if you wish to purchase credit for the period of non-deduction service noted in paragraph i, please make your check payable to the Trassurer of the United States and forward it to the Chief, Retirement Operations Branch, 205 Magazine Building. If you prefer, you may make installment payments or arrange for bi-weekly payroll allotments of \$25,00 or multiples thereof. A receipt showing a statement of your account will be sent to you acknowledging each payment.

To this post he has brought his depth of knowledge of things

While Mr. Wheeler may have spent much of his time on things	٠. ٠

MEMORANDUM FOR: Secretary, CS Career Service Board

SUBJECT:

Recommendation for Promotion to GS-16 -- Mr. Robert P. Wheeler

1. Mr. Wheeler stands Number Pour on the Division's list of recommended promotions to GS-16. Mr. Wheeler is 47 years old and has been in grade since December 1957. Most of Mr. Wheeler's Agency career has been devoted to the although he served one tour most commendably as Chief FI for the FE Division. He is now and is an operations officer and executive of the highest quality. In addition to bearing a very large share of the administrative burden of a big station, Mr. Wheeler has acquired a collection of friends and contacts in important governmental and business circles unequaled, I believe, by any other member of the official American community has exploited these contacts most effectively for Agency and U.S. Governmental purposes, it is the plan of the FE Division to give freer rein to Mr. Wheeler's operations in this field by avranging, carefully and deliberately, for Mr. Wheeler which will permit him to devote a greater share of his time to the exploitation of this most important section of We believe that his very considerable talents as an administrator can be adequately replaced but that life standing among the and his capability for operational exploitation of his advantages are unique. I believe that Mr. Wheeler can well be considered to be the prototype of the high ranking staff officer who can forego bureaucratic advancement for a purely operational career-

 On the basis of his proven ability and past performance as well as his sentority I believe Mr. Wheeler to be fully qualified for promotion to GS-16.

SUBJECT: Commendation

- 1. It is a very real pleasure for me to be able to acknowledge the excellent manner in which you carried out your duties as officer in charge of the direct handling of the POCARGO case. You are to be particularly commended on the manner in which you adjusted to a type of operation with which you had never previously been directly concerned, on the personal rapport which you developed with POCARGO and the good judgment displayed in anticipating and dealing with difficult personality problems, and on your understanding of the broad policy problems implicit in this case.
- 2. I wish to assure you that your substantial contributions to the success of this operation, as well as the personal inconvenience caused by your precipitate and prolonged departure from your family, are fully appreciated. You are further commended on the demonstrated fact that this personal inconvenience in no way affected either your effectiveness or your contagious enthusiasm which contributed so much to this operation.

During the past reporting period Mr. Wheeler has served his first full year as Chief of the newly-created

He has worked hard and long to improve and simplify the procedures through which we recruit, train, and deploy our nonofficial cover personnel. He has identified accurately the bureaucratic roadblocks that stand in the way of our efficient use of nonofficial cover and if he has not succeeded in removing these barriers he has made some progress. His enthusiasm for the job and his belief that it can be done have been invaluable during a formative period, and his performance on the whole has been a strong one.

Robert P. Wheeler

1. In compliance with HR 20-20, this memorandum is submitted in lieu of Fitness Report Form 45 covering the performance of Mr. Wheeler from January 1968 to 31 March 1969.

- 2. In late 1967 it was determined that Mr. Wheeler would be reassigned in June 1968 from the Office of Planning, Programming and Budgeting (OPPE) to the Missions and Programs Staff (MPS). Under an arrangement with the Director of PPB, Mr. Wheeler was lent to MPS on 1 January 1968 for the purpose of preparing himself to assume the functions of Chief of the Programs Group (PRG) in MPS. Accordingly, what follows covers the period of the loan, from 1 January to 11 June 1968, and the period as Chief, PRG, from 12 June 1968 to 31 March 1969.
- 3. From 1 January to 11 June 1958. During the period of Toan to YPS, Mr. Wheeler understudied the then Chief of PRG, acquainted himself with all Group files and responsibilities, attended the Advanced Kanagement (Planning) Seminar and performed numerous ad hoc tasks assigned him by C/MPS. He prepared himself for the new assignment and performed the ad hoc tasks assigned with such dispatch, enthusiasm and intelligence as to augur well for the future. No minor task was too menial; every major task was readily accepted as a challenge. In short, his preparation for the new position soon to be assumed left little to be desired on the part of the Rating Officer.
- 4. From 12 June 1968 to 31 March 1969. As Chief of PRG, Mr. Wheeler is responsible for, inter alia, liaison on non-budgetary matters between the CS and OPPB; installing the Planning, Programming and Budgeting System (PPBS) within the CS: advising and assisting CS components in the preparation of Operating Directives and the program

portions of the annual Operating Program responses; chairing the Program Review Panel; preparing and/or coordinating special studies and surveys on operational programs; and, as required, advising CS components on the requirements of PPBS that need to be addressed in CS documents requiring DCI or Executive Director-Comptroller action.

In carrying out the functions enumerated in paragraph 4, above, Mr. Wheeler has displayed drive, initiative, enthusiasm and understanding. He has pushed within the CS on those concepts of PPBS that are considered applicable to an intelligence organization and has argued with OPPB against forcing the CS to apply those concepts which are not considered to be applicable. He has worked diligently, alone and with the assistance of the DDP/TRO, to spread throughout the CS an understanding of the why and how of PPBS. He has prepared himself well for and has exercised sound judgment and tact in the handling of the chairmanship of the Program Review Panel, on the actions of which he has brought to bear his experiences in OPPB. He has given unstintingly of his time to lecturing at Agency management courses when requested. Although he understands the need for flexibility in the CS, he has to be slowed down at times so anxious is he to make the CS the best managed directorate in the Agency. His sincere interest in good management has made him and the two senior officers he supervises cost conscious. This affable, conscientious, dedicated, highly experienced, intelligent employee, who already has given evidence of a strong performance, is a pleasure to collaborate with and a valuable asset to MPS and the CS.

Mr. Robert P. Wheeler, GS-16, O/PPB,

Employee Serial No. 060947, D Career Service

REFERENCE: HR 20-20c(2)

- 1. In accordance with reference, this memorandum is submitted in lieu of a Fitness Report (Form 45). This is an annual report but in view of Mr. Wheeler's transfer to the Missions and Programs Staff, DD/P, in January 1968, it covers only the period April 1967 through December 1967.
- 2. Mr. Wheeler's assignment as Program Analyst involved:
 (a) reviewing and evaluating Agency activities, principally covert action programs; (b) participating in special in-depth studies of selected Agency activities; (c) preparing the Covert Action Program Memorandum for the Director's approval and submission to the Bureau of the Budget; (d) keeping abreast of Agency plans, programs, and progress toward defined objectives; (e) providing general staff assistance to the Director/PPB in implementing the Agency planning, programming, and budgeting system; and (l) preparing special presentations and correspondence for the Office of the Director.
- 3. During the year, Mr. Wheeler participated in a survey by the Inspector General of Agency proprietary organizations. He contributed significantly to the study. In addition, he was the Office monitor for atleast two studies for the Bureau of the Budget.
- 4. Mr. Wheeler was the principal analyst assigned to the review of the Agency's Covert Action Program. He reviewed Directorate program plans and proposals, identified issues to be raised with the Director, and prepared a Program Memorandum for the Director's approval which presented Agency Covert Action plans and programs for the next five years.

2. It is against this perspective that Subject's performance during the past year should be evaluated. He approached his job with enthusiasm and vigor but soon found that there were no tangible operational activities he could devote himself or his supporting agents to. He has been frank to state officially and unofficially the absence of any targets to which an operational base could direct itself and has therefore been relatively unoccupied during this period except for an occasional item of local coordination or follow-up on a headquarters task. 3. Subject is a mature, experienced and energetic officer with both operational and scholarly interests in Far Eastern, affairs. His talents are obviously being and arrangements have already been made to have him reassigned. The base itself will be phased down in the summer of 1966

Annual Report For the Period 1 April 1963 - 31 March 1964

In preparing this memorandum in lieu of submitting Fitness Report Form 45, I can only set forth my yearly reiteration that ... Subject is a senior, well-experienced, well-motivated, high caliber KUBARK officer who has been in his present grade, 03-15, since 1957. His high standard of contribution to the Station as its Deputy Chief of Station continues unfailingly. operations encompass a broad spectrum of

To keep on top of this activity it needs a man of energy backed up by sound operational knowledge and Subject has carried this job capably and with a will: I would certainly grade him "S" in performance evaluation.

is widely dispersed and I have urged Subject on several occasions to get out to the various operational elements in an attempt to get closer to and stimulate the working case officers. After one or two starts he has not kept this up on a continuing basis, remaining at his invariably working through the individual branch chiefs. I am convinced more offort on his part in this field could have resulted in more yield to the Station from his long area and operations experience.

Subject to well-known and the pro's and con's or the value of an officer toward in one area for the major portion of his time with KUBARK (possibly to the detriment of his career) have been discussed to a sufficient degree as to rule cut further reference in this memorandum. Subjectia scheduled to leave and enter an assignment where his operational talents will be or grown value.

In any considerations concerning Subject being conducted by any personnel bourd or by any official of the Agency interested in KUMARK personnel, the significant points are Subjectis a deeply motivated, highly capable officer who has been in his current grade too long.

MEMORANDUM FOR THE RECORD

SUBJECT: Fitness Report on Robert P. WHEELER

1. The attached Fitness Report should be read with the following facts in mind. The Rating Officer arrived in on or about 19 March 1956 and 21 January 1956. Mr. Wheeler left was in the United States on TDY until 8 May 1956. From 8 May until he on 7 June 1956, Mr. Wheeler was unassigned while the Rating Officer was Chief of Operations, Mr. Wheeler was in his assigned position simultaneously for less than one month and it is my understanding Mr. Wheeler did not report to Mr. Heckoher, but directly to the Chief of Station.

2. I question, therefore, whether Mr. wheeler was under the Rating Officer's direct supervision for a sufficient period of time to insure that the attached report is a completely equable one. Inasmuch as the Chief of Station reviewed this report and made no comment, I am in no position to take issue with it, but suggest that it be viewed in the context of other Fitness Reports on Mr. Wheeler.

## ATTACHMENT TO FIELD REASSIGNMENT QUESTIONNAIRE:

Re Paragraph C - Preference for Next Assignment:

1. I would like to state that while a tour at Headquarters should be my preference I believe that for me to leave my current assignment at this time for even one year would not be in the best interests of either KURKEK or CDYOKE. Therefore, I request home leave, with approximately one month at Headquarters for requested training and refresher work and one month of leave, returning to current assignment for at least an additional two-year tour with the provise that after the first year the situation be re-examined with the ultimate view of possibly at that point considering a two-year tour at Headquarters.

.2.

have been able to provide a certain degree of intelligence continuity which could be speiled by a two-year break. Realizing that career-wise I should spend at least one tour at Headquarters in the Neture, I believe that, despite possible reflections against my career, that two year period should be delayed until

3. I believe that by experience, training and inclination. I can better serve KUBARK in this country in the type of work in which I am now engaged than by any other assignment currently known to re.

### NARRATIVE EVALUATION REPORT

N	Inro: Feriol Covered: 1 June 1953 to 1 June 1954
0	recession for report: Annual X; reassignment of reporting officer; reposed reassignment of employee reported on; covering initial 90 days femployment  mployee is to be rated upon following factors:
123 4 56.7	<ul> <li>Knowledge of the job being performed.</li> <li>Judgment in arriving at logical and workable solutions.</li> <li>Dependability, not only in being on the job, but in accomplishment of nesigned tasks within reasonable deadlines.</li> <li>Stability under pressure and ability to adjust to changing conditions and circumstances.</li> <li>Imagination, initiative, and originality.</li> <li>Security consciousness.</li> </ul>
	IN SAIRNESS TO EMPLOYEES, CONFLETED NAUNATIVE EVALUATIONS SHOULD BE DISCUSSED WITH EMPLOYEE CONCERNED
1.	Employee is well qualified in substantive fields  This knowledge solves him exceedingly well in the performance of assigned duties. What knowledge he lacks concerning KUBARK policies or procedures in fast being supplied by practical field experience.
2.	His judgment at arriving at logical solutions is good under normal conditions, and he generally comes up with solutions which are workable and realistic.

4.	Employee is somewhat excitable and emotional and, thus, at times of unusual pressure, he may require a steadying hand. This is not a serious fault and is one concerning which the employee is aware. He adjusts well to changing conditions and situations.

NOTE: See attached shoot for additional comments by Reviewing Officer

Date: 17 June 1954

(If Reviewing Officer of Chief of Station does not commun with this report, exceptions will be stated in space provided below)

COMPRESSION

- 1. While the Reviewing Officer concurs generally with statements made in this report, it is felt that the over-all impression does not give Subject as much credit as he deserves. In the opinion of the Reviewing Officer, Subject's faults are somewhat ever-emphasized. Subject's qualities as exhibited during past months have preven to be outstanding, particularly in his excellent judgment in arriving at logical and workable solutions and in his stability under operational exigencies in which Subject has performed exceedingly well under heavy pressures of both time and responsibility.
- 2. Working in an area where, in the past, there has been an unfortunate number of misunderstandings between KUFIUS and KUGCAN components, and where there have been the usual difficult personality conflicts. Subject has exhibited not only superior tact and diplomacy, but has also been able to smooth out many difficulties, and modify aggressively offensive actions. He has supplied a needed cooperative spirit and sense of humor to prevent, in many cases, serious antagonisms and unnecessary vitualization so detrimental to a smooth working organization. Subject's contribution to tringing about a friendly, cooperative relationship within the mission and with outside agencies including U.S. military organizations cannot be praised too highly.
